

| WCAG 2.1 Criteria: | Requirement: | Hailsham-TC |
|--|---|--|
| 1. Perceivable | | |
| 1.1 Text Alternatives | Alt Text | |
| 1.1.1 Non-text Content | (Except for certain flash and captcha applications) | Not met- alt text is missing on certain graphics and heading images |
| 1.2 Time-based Media | | |
| 1.2.1 Audio-only and Video-only (Prerecorded) | Transcripts provided for videos and audio files | Not currently applicable to this website design |
| 1.2.2 Captions (Prerecorded) | Subtitles on any videos featured on the website | Not currently applicable to this website design |
| 1.2.3 Audio Description or Media Alternative (Prerecorded) | Not currently applicable to this website design | Not currently applicable to this website design |
| 1.2.4 Captions (Live) | Subtitles for live audio/video content | Not currently applicable to this website design |
| 1.2.5 Audio Description (Prerecorded) | Not currently applicable to this website design | Not currently applicable to this website design |
| 1.2.6 Sign Language (Prerecorded) | Sign Language translations accompanying video/audio content | Not currently applicable to this website design |
| 1.2.7 Extended Audio Description (Prerecorded) | Subtitles for sound effects and music within videos and audio | Not currently applicable to this website design |
| 1.2.8 Media Alternative (Prerecorded) | Not currently applicable to this website design | Not currently applicable to this website design |
| 1.2.9 Audio-only (Live) | Not currently applicable to this website design | Not currently applicable to this website design |
| 1.3 Adaptable | | |
| 1.3.1 Info and Relationships | The website is properly structured and has adequate signage on essential buttons and navigation links | Met - the website has proper text on each of the navigation buttons and terms/help links at the base |
| 1.3.2 Meaningful Sequence | The content on the website is organised in a meaningful manner | Met - content is organised via pages |
| 1.3.3 Sensory Characteristics | Website doesn't depend entirely on more eccentric components to be fully comprehensive (shapes, colours, audio, etc) | Met - the website is largely text based, so |
| 1.3.4 Orientation | Website isn't restricted to specifically landscape or portrait unless absolutely necessary | Met- the landscape can be viewed on multiple ratios because of the CSS configuration |
| 1.3.5 Identify Input Purpose | Input fields are clearly labelled | Met - input fields have labels within them |
| 1.3.6 Identify Purpose | Not currently applicable to this website design | Not currently applicable to this website design |
| 1.4 Distinguishable | | |
| 1.4.1 Use of Color | Colour is not used as the only means to distinguish any single element | Met - most interactive elements are identified via text |
| 1.4.2 Audio Control | If any audio files available on the site are longer than 3 seconds, they can be played and paused. | Not currently applicable to this website design |
| 1.4.3 Contrast (Minimum) | Minimum colour contrast for text and images/backgrounds | Met - most text on the website meets at least a 2:1 ratio, which is already better than the minimum |
| 1.4.4 Resize text | Text can be scaled automatically with zoom on browsers | Met - page has a viewport setting in CSS which means the text scales with the browser settings |
| 1.4.5 Images of Text | Plain text is used instead of images of text unless the purpose of the image of text is vital | Not met - some graphics on the page could use plain text instead of the images they are represented by |
| 1.4.6 Contrast (Enhanced) | Not currently applicable to this website design | Not currently applicable to this website design |
| 1.4.7 Low or No Background Audio | Background audio doesn't have essential information embedded | Not currently applicable to this website design |
| 1.4.8 Visual Presentation | Text and background colour can be changed | Not required - browsers retain this functionality inherently |
| 1.4.9 Images of Text (No Exception) | Not currently applicable to this website design | Not currently applicable to this website design |
| 1.4.10 Reflow | The base webpage can be displayed with scrolling only required in one direction | Met - the website only scrolls vertically |
| 1.4.11 Non-text Contrast | User interface components have adequate contrast (3:1) | Met - most text on the website meets at least a 2:1 ratio, which is already better than the minimum |
| 1.4.12 Text Spacing | Not currently applicable to this website design | Not currently applicable to this website design |
| 1.4.13 Content on Hover or Focus | Highlight certain information when it is hovered. | Not required - however, could be easily implemented using hover properties in CSS, to highlight navbar buttons and other links when moused |
| 2. Operable | | |
| 2.1 Keyboard Accessible | | |
| 2.1.1 Keyboard | All content is accessible with purely keyboard input, except when cursor movement is also required, as well as the endpoint. | Met - as long as the browser used is recent, arrow keys can be used to navigate links |
| 2.1.2 No Keyboard Trap | If keyboard focus can be moved to a specific element, the keyboard can also be used to move focus away from that element. | Not currently applicable to this website design |
| 2.1.3 Keyboard (No Exception) | All content is accessible through a keyboard without need for specific timings on keystrokes | Not currently applicable to this website design |
| 2.1.4 Character Key Shortcuts | Not currently applicable to this website design | Not currently applicable to this website design |
| 2.2 Enough Time | Not currently applicable to this website design | Not currently applicable to this website design |
| 2.2.1 Timing Adjustable | Not applicable to this website design | Not applicable to this website design |
| 2.2.2 Pause, Stop, Hide | Not applicable to this website design | Not applicable to this website design |
| 2.2.3 No Timing | Not applicable to this website design | Not applicable to this website design |
| 2.2.4 Interruptions | Not applicable to this website design | Not applicable to this website design |
| 2.2.5 Re-authenticating | Not applicable to this website design | Not applicable to this website design |
| 2.2.6 Timeouts | Not applicable to this website design | Not applicable to this website design |
| 2.3 Seizures and Physical Reactions | Content is displayed in a way that won't cause seizures | Not currently applicable to this website design |
| 2.3.1 Three Flashes or Below Threshold | Content does not flash more than three times in one second | Not currently applicable to this website design |
| 2.3.2 Three Flashes | Content does not flash more than three times in one second | Not currently applicable to this website design |
| 2.3.3 Animation from Interactions | Not applicable to this website design | Not applicable to this website design |
| 2.4 Navigable | | |
| 2.4.1 Bypass Blocks | Content that is displayed in large blocks has a method to be bypassed or a button to allow the user to skip back to the top of the page | Not currently applicable to this website design |
| 2.4.2 Page Titled | Pages are all titled with accurate headings of topic or purpose | Met - all webpages have adequate headings |
| 2.4.3 Focus Order | Webpages that can be navigated sequentially have focusable components that preserve meaning and operability | Not currently applicable to this website design |
| 2.4.4 Link Purpose (In Context) | Link purpose can be determined purely from the link text | Met - links are all labelled with text using the heading of the page they link to |
| 2.4.5 Multiple Ways | More than one way is available to access a webpage among a group of webpages except when the webpage is part of or the result of a process | Met - the navbar is always present |
| 2.4.6 Headings and Labels | Headings and labels describe topic or purpose | Met - headings are accurate for the content that proceeds them |
| 2.4.7 Focus Visible | Any keyboard operable elements show focus indicated visibly | Met - text cursor appears within text input boxes |
| 2.4.8 Location | Information about the user's location within a set of webpages is available (breadcrumbs, etc) | Not currently applicable to this website design |
| 2.4.9 Link Purpose (Link Only) | A mechanism is available to allow the purpose of the link to be identified from link text alone, except when the link is ambiguous regardless | Not currently applicable to this website design |
| 2.4.10 Section Headings | Section headings are used to organise content | Met - all webpages have adequate headings |
| 2.5 Input Modalities | Not currently applicable to this website design | Not currently applicable to this website design |
| 2.5.1 Pointer Gestures | Not applicable to this website design | Not applicable to this website design |
| 2.5.2 Pointer Cancellation | Not applicable to this website design | Not applicable to this website design |
| 2.5.3 Label in Name | Not applicable to this website design | Not applicable to this website design |
| 2.5.4 Motion Actuation | Not applicable to this website design | Not applicable to this website design |
| 2.5.5 Target Size | Not applicable to this website design | Not applicable to this website design |
| 2.5.6 Concurrent Input Mechanisms | Not applicable to this website design | Not applicable to this website design |
